Independent Auditor's Report

To the Board of Trustees  
of Design Trust for Public Space, Inc.

I have audited the accompanying financial statements of Design Trust for Public Space, Inc., which comprise the Statement of Financial Position as of December 31, 2014, and the related Statements of Activities, Cash Flows, and Functional Expenses for the year then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

**Opinion**

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Design Trust for Public Space, Inc., as of December 31, 2014, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

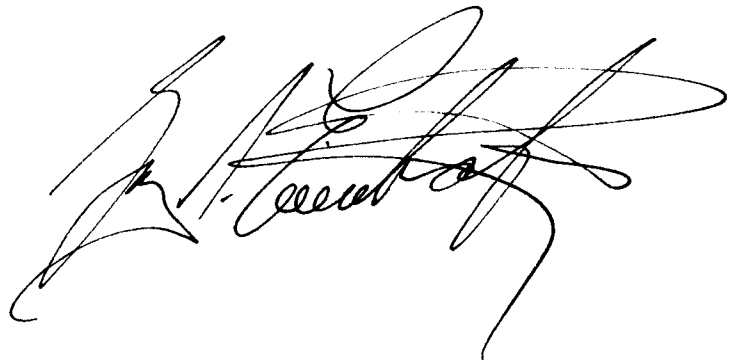

**Report on Summarized Comparative Information**

I have previously audited the Design Trust for Public Space, Inc.'s, 2013 financial statements and in my report dated June 26, 2014, I expressed an unmodified opinion on those financial statements. In my opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2013, is consistent, in all material respects, with the audited financial statements from which it has been derived.

**Report on Supplemental Information**

My audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule of program expenses on page 7, which is the responsibility of management, is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I do not express an opinion or provide any assurance on it.

**Note 1 - Nature of Activities and Summary of Significant Accounting Policies**

Nature of Activities

Founded in 1995, the Design Trust for Public Space, Inc. is a nonprofit organization dedicated to the future of public space in New York City. Our projects bring together city agencies, community groups and private sector experts to make a lasting impact through design on how New Yorkers live, work and play.

Today we are a nationally recognized incubator that transforms and evolves the city's landscape with city agencies and community collaborators. Our work can be seen, felt and experienced throughout all five boroughs, from parks and plazas to streets and public buildings.

Design Trust for Public Space, Inc. was incorporated in the State of New York in 1995.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Financial Statement Presentation

The Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets represent revenues and expenses related to the operations and management of the Organization's primary programs and supporting services. If funds are raised and set aside by the Board for future use, these are considered unrestricted. Temporarily restricted contributions that are expended for their restricted purpose in the same reporting period as received may be recorded as unrestricted.

Temporarily restricted net assets represent resources available for use, but expendable only for the purpose specifically stated by the donor. As of December 31, 2014 there were \$12,475 of temporarily restricted net assets.

Permanently restricted net assets are assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of these assets permit the Organization to use all or part of the income earned on only related investments for general or specific purpose. As of December 31, 2014 there were no permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash

Cash consists of demand deposit accounts held at major financial institutions and may at times exceed the insurable amount. Management believes it mitigates its risk by investing in a major financial institution and in funds that are currently U.S. federal government insured. Recoverability of investments is dependent upon the performance of the issuer.

See independent auditor's report.

**Design Trust for Public Space, Inc.**  
**Notes to Financial Statements**  
**December 31, 2014**

**Note 1 - (Continued)**

Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid investments purchased with original maturities of three months or less when purchased to be cash equivalents.

Contributions

Contributions are recognized when the donor makes a promise to give to the Organization that is in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restriction expires in the fiscal year in which the contributions are recognized. All other donor restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Revenue Recognition

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted depending on the existence and / or nature of any donor restrictions. Design Trust has not received any contributions with donor-imposed restrictions that would result in permanently restricted net assets.

Income is recognized on an accrual basis when earned.

Accounts and Pledges Receivable

Accounts and pledges receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through adjustments to valuation allowances based on its assessment of the current status of individual receivables. Balances still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance. For the year ended December 31, 2014 the allowance for doubtful accounts was \$0.

Property and Equipment

Property and equipment are recorded at cost or, if donated, the approximate fair value at the date of donation. Depreciation is provided on the straight line method over the estimated useful lives of the assets as follow:

Equipment	5 years
Furniture and fixtures	5 years

It is the policy of the Organization to capitalize items with a value greater than \$1,000.

Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations and replacements, which improve and extend the life of the assets, are capitalized.

Reclassifications

Certain reclassification have been made to prior year amounts to conform to the current year presentation.

See independent auditor's report.

**Notes to Financial Statements**  
**December 31, 2014**

**Note 1 - (Continued)**

Promises to Give

Unconditional promises to give are recognized in the period received both as revenues or gains and as assets, decreases of liabilities, or expenses, depending on the form of benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional.

Income Taxes

Design Trust is exempt from federal income taxes under section 501(c)(3) of the Internal Revenue Code. Therefore, no provision for income taxes has been provided for in the accompanying financial statements.

Tax Uncertainties

The Organization's policy is to record interest expense and penalties in operating expenses. For the year ended December 31, 2014, there was no interest and penalties expense recorded and no accrued interest and penalties.

The Organization's Federal Forms 990 are open for examination for the years ended December 31, 2011 and thereafter.

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Concentrations

The Organization maintains cash balances in one financial institution, which at times exceeds federally insured limits. The Organization has not experienced any losses related to these accounts and believes it is not exposed to any significant credit risk.

Approximately 24% of Design Trust's contributions were provided by one individual and foundation controlled by them during the year ended December 31, 2014.

Donated Services

Donated services are recognized as contributions if the services (1) create or enhance nonfinancial assets or (2) require specialized skills, are performed by people with those skills, and would otherwise be purchased by the Organization. Volunteers provide various services that are not recognized as contributions in the financial statements since the recognition criteria were not met.

Subsequent Events

In preparing these financial statements, Design Trust has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through June 24, 2015, the date the financial statements were available to be issued.

See independent auditor's report.
